FOR IMMEDIATE RELEASE

SAN DIEGO, June 25, 2012 — ISTE Annual Conference and Exposition — Lesson Planet, the leading online curriculum search solution for PreK-12 educators, introduces a unique new feature to help teachers implement the Common Core. Lesson Planet's Common Core solution with Aligned Resource Search™ supports teachers in understanding, planning for, and implementing the Common Core.

The [Aligned Resource Search](#)™ is an optimized Common Core search that takes the discrete skills from unpacked Common Core standards and maps them to a wide variety of teacher-reviewed lesson plans and other open educational resources. A professional development webinar series, included in Lesson Planet's [School Edition](#) offering for schools and districts, supplements this feature to help teachers expand and hone their teaching skills as they prepare for Common Core implementation.

Jim Hurley, Lesson Planet's CEO & Founder, stated, "We're very excited to offer teachers a complete solution for understanding and implementing the Common Core. They should feel confident turning to Lesson Planet to help them meet this new challenge."

The company exhibits at [booth #5411](#) during [ISTE 2012 in San Diego, June 25-27](#). Demonstrations led by Lesson Planet curriculum specialists will include how teachers can use the new Aligned Resource Search™ to quickly find lesson-planning resources aligned to the Common Core.

About Lesson Planet

Lesson Planet (www.lessonplanet.com) is the leading online curriculum search solution for PreK-12 educators. The award-winning search engine enables teachers to easily find and share 400,000+ teacher-reviewed curriculum resources within an online, professional community.
